HEAT TRANSFER VINYL

PRODUCT DESCRIPTION

BF FATTY series is a high thickness thermo-transferable polyurethane film made to give graphics a threedimensional effect. This material is recommended for application of logos or graphics on caps, sweatshirts and materials or fabrics with consistent surfaces. The wide range of colors, including gold and silver, allows for the creation of unique designs and letters, which can also be overlaid or combined with other B-FLEX series.
The cutting lines of all the films are highly visible. Its polyester non-adhesive carrier allows for fast weeding, with a firm initial tack, which allows to cut details as small as 1 cm.
