WR 64 X/Y AUTOMATIC CUTTER

- Simultaneously X/Y cutting
- Very simple to load and operate
- Speed up to 18m/min

THE WR64 IS AN AUTOMATIC X/Y ROLL CUTTER

With the ability to sense the **FOTOBA CUT MARKS** cutting is fast and precise!

The WR64 can cut most flexible materials, as an option it can be equipped with an automatic side sensor, that will compensate for tapered or poorly wound rolls.

Very simple to load and operate

The optional side sensor will compensate for inaccurately wound rolls.

The new keyboard makes it easier to learn and operate
